

No Curb Adapter Needed!

Find your existing model number in the chart below and replace it with a Z-Series Unit by Allied Air, and it's a direct fit!

PACKAGED ROOFTOP UNITS – 3- TO 12.5-TON MODELS

With the Z-Series™ rooftop units, you can save up to \$1,500* when eliminating the use of an adapter curb and the need to move utility connections. The chart below shows the compatibility between popular competitive models and the Z-Series unit.

*\$1,500 savings is calculated in replacement jobs where the Z-Series unit matches the existing curb and no other modifications are needed, compared to a replacement unit with a different footprint, using a price of \$750 for a transition curb and \$750 to move utility connections.

**Supply and return match Z-Series, however, curb may be wider and may require an adaptor curb. Please confirm existing curb dimensions.

Compatibility refers to the existing curb fit and location of utility connections. It is the responsibility of the installing contractor to verify fit for each application.
